The **Second Annual ComTech Summit** brings together business leaders with other managers and entrepreneurs from maturing and start-up companies to learn about honing leadership skills, strategies for jumpstarting your business, safeguarding your assets and staying on the leading edge of technology.

**ComTech Summit** is the only annual East Bay event that focuses on both networking and educational content to prepare the leaders of evolving companies to scale and tackle new markets and opportunities.

### Keynote Discussion:

#### It's Time: Skyrocketing in a Down Economy

Two CEOs from two of the Bay Area's fastest-growing technology companies discuss the path they've taken to success during these rough economic times. Learn about markets, leadership, positioning and preparing for the recovery from Elizabeth Fetter, president and CEO of QRS Corporation and Enrique Salem, president and CEO of Brightmail, the anti-spam market leader that provides secure messaging environments to some of the world's leading enterprises, including eBay, Charles Schwab and Lucent Technologies. Fetter successfully returned QRS to profitability in 2002 and has been named one of the 100 most influential women in business by San Francisco Business Times for six years. Salem and Fetter will be joined by Robert Miles, author and executive advisor who has successfully executed corporate transformations with GE's Jack Welch and Office Depot's Bruce Nelson, to name a couple.

**Elizabeth Fetter**, President & CEO, QRS Corporation

**Enrique Salem**, President & CEO, Brightmail

In discussion with: **Robert Miles**, Author and Executive Advisor on Corporate Transformation
